STRANGEBASTARD

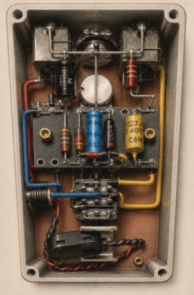

GERMANIUM TREBLE BOOSTER

SELECTED NOS PARTS
HANDBUILD

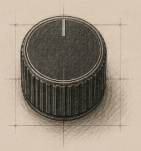

THE STRANGEBASTARD

— HANDCRAFTED —

Each StrangeBastard is individually voiced
around a carefully selected NOS germanium transistor.

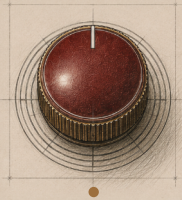

INPUT TRIM

Fine-tunes the pedal to match your guitar and amplifier.

↓ LOWER	↑ HIGHER
- Brighter response	- Fuller sound
- More headroom	- More saturation
- Less compression	- Increased compression

⊕ POSITIVE GROUND (PNP)
Use only with an isolated 9V DC power supply.

GAIN

Controls the output level feeding your amplifier.

↓ LOWER	↑ HIGHER
Clean boost with increased headroom.	More output, saturation and sustain.

CENTRE POSITION =
VINTAGE TREBLE BOOSTER OUTPUT.

Beyond the centre position, additional output is available to drive modern amplifiers harder.

RANGE

I **FULL RANGE**
Open and dynamic.
Ideal for full-range boost.

O **CLASSIC**
The classic vintage treble booster voice.
Pronounced upper mids.

II **FOCUSED LEAD**
Focused upper mids with a tighter attack.
Cuts through the mix without losing body.
